

Cash for **LAB** Clunkers!

Get a \$1,000 factory rebate

Caron has a stimulus plan for YOU. We are contributing to your economic recovery by offering YOU a \$1,000 factory rebate when you buy Caron's 25 cu. ft. Environmental Test Chamber. Retire and replace your energy inefficient "lab clunker,"* and you are eligible for the rebate.

To qualify, simply send in the serial number tag and photograph of your old lab clunker when you purchase a new Caron Model 6020 Environmental Test Chamber. Chambers that typically qualify:

- Use a 500+ Watt steam generator to produce humidity
- Require an electrical circuit with more capacity than 115V/20 Amps to operate
- Waste water by not offering a recycling system.

Caron chambers are designed to be environmentally friendly. Other environmental chambers waste energy, but the Model 6020 uses new Caron technologies, including gROD™ and gVapor™, that efficiently manage power consumption and lower the operating costs of your laboratory. They are also designed with energy-efficient components (including high R, CFC-free foam insulation).

Call Customer Service today at 800-648-3042, email sales@caronproducts.com or visit www.caronproducts.com.

*Eligible "lab clunkers" include non-Caron environmental test chambers, 20 cu. ft. and larger in the USA and Canada. New Caron 6020 units must be ordered between November 1, 2009 and January 31, 2010 for immediate delivery. Rebate will be paid to the end user's organization, who must be the legal buyer according to the purchase order. Call Caron for additional details, terms, and conditions.
